

Red Hat Enterprise Linux Final Report

Ben Andrews, Jimmy Hickey, Erika Jensen

November 30, 2017

Contents

1	Process Synchronization Implementation	2
1.1	Algorithms & Pseudo Code	2
1.2	Comparison to Red Hat	2
2	CPU Scheduling Implementation	2
2.1	Algorithms & Pseudo Code	2
2.2	Comparison to Red Hat	2
3	Memory Management Implementation	2
3.1	Algorithms & Pseudo Code	2
3.2	Comparison to Red Hat	2

1 Process Synchronization Implementation

1.1 Algorithms & Pseudo Code

1.2 Comparison to Red Hat

2 CPU Scheduling Implementation

2.1 Algorithms & Pseudo Code

We implemented the Linux `SCHED_OTHER` algorithm.

2.2 Comparison to Red Hat

3 Memory Management Implementation

3.1 Algorithms & Pseudo Code

3.2 Comparison to Red Hat
